### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach claimed invention alone or in a combination.

The invention as claimed is a document processing method that receives availability profiles from remote computers, a work order with image of a document from customer's computer. The method decomposes image into plurality of data entry region sub-images and providing any of those sub images to available personnel using the profile to receive data entry value. In short the method is profile matching and work allocation.

The cited prior art in general teaches profile matching but fails to specifically teach profiling and job allocation in combination with decomposing image into sub image and providing sub-images to available personnel as claimed. Therefore the invention as claimed is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
